It started with a question:

Why does Africa's money  
still come from France?

The CFA Franc still controls  
14 African countries'  
economies.

It's printed in France,  
not Africa.

So I thought: what if I  
turned this reality into art  
and then, into action?

*on December 21, 2024,  
we hit \$15 million  
market cap.*

100 BABA BILLS\$

SOLD OUT

After the \$Bababill NFTs sold out, we teamed up with the Solana AI Hackathon to launch an AI-powered trading token built to support \$Bababill's liquidity.

Together, they became Solana's first symbiotic AI trading ecosystem.

We made a bit of profit, enough to reinvest in the dream.  
Now, we're partnering to build a platform where African digital artists can grow, fund ideas, and connect.
